🎓 EDUCATION BACKGROUND

Soochow University, SuZhou

2016.9– now

undergraduate 2020.6 graduation

GPA: 3.9 / 4.0 ranking first in major

👥 PROJECT EXPERIENCE

Crowd Counting

2019.01

Deep learning with dlib library c++ Laboratory Project

Main Responsibility :

- Read English literature: CNN-based Cascaded Multi-task Learning
- Determine the network architecture, implement and debug with C++

♡ AWARDS

Jiangsu Higher Mathematics (calculus) competition **First prize**

2017 .04

The ACM-ICPC Asia Regional Contest Urumqi Site Bronze Medal

2017 .12

Mathematical Contest In Modeling **Meritorious Winner**

2018 .02

Jiangsu Collegiate Programming Contest **First prize**

2018 .05

The ACM-ICPC Asia Regional Contest Nanjing Site **Gold Medal**

2018 .10

China Collegiate Programming Contest Bronze Medal

2018 .11

ACM-ICPC EC-final Silver Medal

2018 .12

⚙️ IT SKILL

- skill: Python, C, C++, Java
- blog: <https://hu-chi.github.io/>
- platform: Linux, Windows
- english: CET-6 474

2017.06

📖 SELF-EVALUATION

I participated in many competitions related to programming or mathematics, which not only cultivated a good sense of mathematics, but also enhanced the ability to implement code.

I have strong learning ability and I am passionate about learning. The internship time is estimated to be 3 months.
